3 Creating and submitting a registration request.....	9

1 Introduction

The aim of this document is to provide clear, unambiguous guidance for Compensators when creating a registration request for using the on-line service portal. Once registration has been successfully completed and a request approved, a Compensator will be able to receive, process and respond to personal injury claims caused by road traffic accidents from claimants (effective from 6 April 2020).

2 Creating a registration user account

A Compensator will be able to access the on-line service via the following link:

<https://www.officialinjuryclaim.org.uk/>

Here you will arrive at the website landing page. Click the Compensators 'Find out more' box, so you can start the registration process for the on-line service:

The next screen provides further information relating to the registration process and some Frequently Asked Questions. Click 'Register' when ready:

The screenshot shows the 'Compensators' page on the Official Injury Claim website. The page header includes the logo, language options (English | Cymraeg), and a 'Sign in' link. A 'Back' link is visible at the top left. The main heading is 'Compensators', followed by a commitment statement and a paragraph about registration. A section titled 'Your registration process' lists five steps: 1. Apply to register your organisation, 2. Accept the user agreement, 3. Set up your organisation structure (web), 4. Create user accounts (web), and 5. Set up your integration. A yellow 'Register' button is located at the bottom left of the page content.

Compensators

We are committed to making sure your organisation has the information it needs to prepare for the new service.

Registrations for Official Injury Claim are now open to claimant representative organisations to help your preparations for the service launch. This includes, setting up your organisation, creating accounts for your web users and developing your integration to the service.

Security of data is of paramount importance and Official Injury Claim is compliant with data protection and GDPR legislation. We are committed to ensure high security standards are maintained.

Your registration process

Each organisation will need to nominate an Administrator who takes responsibility for completing the registration process and creating user accounts. Our [Quick Reference Guide](#) provides details for Administrators preparing to register their organisation. Here is a short summary of the process:

- 1. Apply to register your organisation**

Your Organisation Administrator will enter their name and email on this website and then complete the initial account creation process by following an email link. Your registration request will indicate the access your organisation requires: (a) web only, (b) web and integration.
- 2. Accept the user agreement**

Your organisation administrator will then need to view and accept the [user agreement](#)

Official Injury Claim will then assess your application and confirm acceptance via email within five working days.
- 3. Set up your organisation structure (web)**

Each organisation is different, and the registration process enables Administrators to set up their own preferred structure for organising their web users, for example to distinguish between separate Offices.
- 4. Create user accounts (web)**

Your Administrator will create individual user accounts for your organisation's office administrators and claims handlers. Those individual users will receive an email link to confirm their user account has been set up. Your Administrator may want to advise users to look out for the email and to check they have received it.
- 5. Set up your integration**

For organisations requesting integration access, Official Injury Claim will enable access to the integration environment and provide access to an integration portal where the various integration specifications are made available.

Register

On the next screen, enter the following details:

- Forename;
- Surname;
- Email address;

Then confirm your email address and click 'Submit':

Compensator registration

This page is for Organisation Administrators only. All other users will be set up by their Administrator and do not need to provide their details here.

If you are your organisation's appointed Administrator, provide your details here and Official Injury Claim will email you a link to complete your registration application.

The Organisation Administration Quick Reference Guide provides information about how to administer your organisation's web access and the [SEE OPS/INTEG DOC] provides information about integration setup. For further support, [Contact Us](#).

The following confirmation screen will be displayed:

Registration request submitted successfully

Please check your emails to continue the registration process.

An email will be sent to the email address you have entered previously. This email will have instructions on how to proceed to create your user log-in credentials. Once you have opened the email, click the 'Activate Account' link:

The following screen will be displayed. Create a password observing the following requirements:

- Password must be at least 8 characters in length;
- Password must contain a lowercase letter;
- Password must contain an uppercase letter;
- Password must contain a number;
- Password must contain a symbol;
- No parts of your user name should be part of the password;
- Password does not include your first name or last name.

Enter the password again in the 'Repeat new password' box, then choose a 'forgot password question' from the drop-down menu choices shown and an answer to that question.

Choose one of the images shown by clicking on it (a tick will appear) then click 'Create My Account':

Enter new password

Password requirements: at least 8 characters, a lowercase letter, an uppercase letter, a number, a symbol, no parts of your username, does not include your first name, does not include your last name. Your password cannot be any of your last 4 passwords.

Repeat new password

Choose a forgot password question

Answer

Click a picture to choose a security image

Your security image gives you additional assurance that you are logging into Okta, and not a fraudulent website.

Create My Account

On the next screen you will be asked to enter an authentication code. Click the 'Send email' box.

An email will be sent to the email address you have entered previously. This email will contain the authentication code. Enter the code in the 'Enter Code' box, check the 'Do not challenge me on this device for the next 28 days' box and then click 'Verify':

The image shows a mobile application screen for email authentication. At the top, the title "Email Authentication" is displayed in a large, bold, dark font. Below the title, the email address "(w...1@claimtest.co.uk)" is shown in a smaller font. There is a text input field labeled "Enter Code" with a cursor inside. To the right of the input field is a button labeled "Send email". Below the input field and button is a checkbox with the text "Do not challenge me on this device for the next 28 days". At the bottom of the screen is a large yellow button labeled "Verify". In the bottom right corner, there is a "Logout" link.

On the next screen, click the icon shown below to start your registration request:

3 Creating and submitting a registration request

On the registration landing page, click the '+Register your organisation' link:

On the next screen, enter the organisation name:

A screenshot of a form titled 'Tell us more about your organisation'. It has two input fields: 'Organisation name*' with a text input box, and 'Organisation type*' with a dropdown menu showing 'Select from one of the following:'. At the bottom left, there is a yellow 'Continue' button.

Select the type or organisation from the drop-down menu:

Then click 'Continue'. On the next screen, enter the following:

- Any previous or other trading names;
- Company Website Address;
- ICO Registration Number;
- FCA Registration Number;
- MIB Membership Number

What is an email domain?

Your company email domain is the web address for your business that comes after the @ symbol in an email address, for example in JohnDoe@company.com, "company.com" is the email domain.

The email domain must match the requirements of the host name, it should consist only of letters, digits, hyphens and dots.

Enter all relevant domain names for your organisation. Note that any users that you register must have an email address that matches an email domain you have added here.
